

WILD YAM CREAM

A transdermal cream formulated with natural ingredients and hormone precursors to help maintain a balance of estrogen and testosterone in the body. When an imbalance is experienced, especially during menopause, it is often treated with synthetic hormones that have been shown to increase the risk of many serious health issues. The body has the ability to achieve its own balance when supplied with precursors and nutritional support. Solution4 Wild Yam Cream is a topical treatment that provides these key precursors when applied to the soft tissue areas of the body. Wild Yam Cream can be used alone or as an essential tool in the Solutions4 Hormone Balancing Program.

Helps To:

- Relieve night sweats and hot-flashes
- Balance estrogen and testosterone
- Provide relief from hormonal imbalances

Concentrated Formula Contains:

DI Water	Wild Yam Extract	Vegetable Grade Stearic Acid
Aloe Vera	Progesterone	Jojoba Oil
Vegetable Base Glycerin	Chamomile Extract	Allantoin
Apricot Kernel Oil	Sesame Oil	Panthenol
Kiwi Fruit Extract	Dehydroepiandrosterone (DHEA)	

***Progesterone – 600 mg (or .60 grams) (YAM SOURCE)**

***DHEA – 600 mg (or .30 grams) (YAM Source)**

Suggested Use: The hormone balancing cream is a trans-dermal skin supplement. It is absorbed quickly and is transported to areas of need. Apply 1/4 tsp. daily to a soft skin area of the body (neck, chest, stomach and the inside of arms and thighs.) Rotate area of application for maximum results. For best results, combine with Solutions4 DHEA internal supplement (for those over 40 years of age).

Size Available: 1.75 fl oz

Shelf Life: 1 year
